YOUTH COUNCIL ADVISER NEEDED

Do you like to work with the youth? The Wellsville City Council is looking for a new Youth Council Advisor. This is a great opportunity to help the community and learn about local government. ILLEGAL STORM WATER PUMPING

As the weather starts to produce more moisture, please be aware that disposing storm water or ground water from a sump pump into the sewer systems is not allowed. This includes putting sump pump discharge in sinks, toilets, bathtubs, or floor drains. Thank you for your help with this matter.

WREATHS TO REMEMBER AND HONOR OUR VETERANS

We have the opportunity to honor our deceased veterans again this year. There are over 360 veterans buried in our cemetery, and we would like to see a wreath placed on each of their graves this Christmas Season. Thanks to the generous offering of the Wellsville community, we accomplished this goal last year and think we can do it again this year.

December 14, 2024 is National Wreaths Across America Day, and Wellsville will join in with a short program at our cemetery beginning at 10:00 a.m. Placement of the Christmas wreaths on our veteran's graves will follow the program. Individuals and families are encouraged to attend and help with the placement of the wreaths. Parents, this is an excellent opportunity to teach your

children respect and honor for those who have served our country. Light refreshments will be available.

Sponsoring a wreath costs just \$17. These wreaths are made of natural pine boughs. They are not small, cheap items, but decent-sized, high-quality wreaths that are handmade with love and long-lasting quality.

There are two ways to make your donation. 1) Log on to www.wreathsassacrossamerica.org/UTWELL and follow the easy instructions, or 2) take your check, payable to Wellsville City to the Wellsville City offices (or use the night drop) at 75 East Main, P.O. Box 6, Wellsville. Be sure to indicate on your check that it is for the Veteran's Wreath program.

Thank you for supporting our veterans, and thanks to Sharp Transportation and the Wellsville City Historical Committee for sponsoring this event.

DID YOU KNOW?

Leaves can be a great source of nutrients for your property, so consider mulching them into fertilizer for your yard or garden. However, a decaying mat of leaves on your lawn can expose it to mold and disease. If your lawn is covered with more than 50 percent of decaying leaves, consider bagging or composting leaves, rather than mulching.
